## Application for first floor flat at Franchise Street, Derby

### Guidance notes - Please read these notes before completing the application form

Submitting an application does not guarantee that you will be accepted on to the Liversage Trust waiting list. To be eligible for rehousing in a Liversage Trust almshouse you must meet the qualifying criteria detailed below. You may provide relevant additional information in support of your application, which can also be used to determine any additional priority for your circumstances.

It is important that you complete the form fully and include all information that you want to be considered. An incomplete form could cause a delay in processing your application or we may have to return it to you.

Please complete the form in black ink and ensure the hand writing is legible. Please fill in every part of the form fully, and if you feel a section doesn't apply, mark it with N/A (not applicable).

### Qualifying Criteria

To be eligible for housing into a Trust almshouse, an applicant must meet all three of the following criteria:

- Applicants must be in housing need, hardship or distress. Any applicant whose total assets are over £23,250 is not considered to be in housing need. Assets include savings, bonds, investments and property / land ownership.
- Applicants must be 60 years of age or over.
- Applicants must have resided in Derby for five continuous years prior to application. Any applicant who has lived out of Derby for even a short time within the last five years will not be eligible.

### What happens next?

Once you have completed the application form, return it to our office, bringing with you the verification documents for copying. Failure to provide all documentation will prevent us from registering your application. Once your application has been assessed you will be notified in writing whether or not you have been accepted to the waiting list. All applicants will be invited to meet with a Trustee prior to any offer of accommodation.

All forms should be returned to:
